Provider Directory Review and Revalidation Requirement

Provider directories are an important resource for health care consumers, who utilize them to select providers, make appointments, and access care. Consistent with the No Surprises Act of 2021, Harvard Pilgrim Health Care requests that providers revalidate their demographic information every 90 days to ensure accuracy of the Provider Directory. Failure to review and update demographic information at least quarterly may result in directory suppression until such information is validated.

It is important to revalidate and submit confirmation that you have reviewed your facility information in a timely manner; to do so, please complete the attestation form at <https://hphcproviders.healthtrioconnect.com>. Your review should include revalidating the facility name and full addresses of all hospital locations. If you have not completed the attestation within the past 90 days, you will see the following message on the Home Screen:

Provider Data Verification

1. Select **Office Management** from the top navigation bar and select **Attestation Worklist**:

2. If your demographic information is correct, select **No Changes** from the **Provider Data Verification** screen:

Provider Data Verification

The providers listed below require review.
