

HPHConnect User Role Information

Definitions

The "User Role" in *HPHConnect* identifies the "what" data/functions (e.g., see claims or not) a user of *HPHConnect* would be authorized to see. Each user must be assigned a user role. User role definitions are provided in the grid below.

Available Provider User Roles

- Main Office Contact (main office contact)
- Back office
- Front office
- Clinician (main office contact)
- Clinician designee main office contact (main office contact)
- Clinician designee-back office
- LCU reporting
- Provider (main office contact)

Main Office Contact

Main Office Contact staff have access to all administrative functions in *HPHConnect* (eligibility, claims, etc.) and are also responsible for the administration of *HPHConnect* for their organizations. They are responsible for maintaining their organizations user list by adding new staff, deleting staff that have left or no longer require access and modifying user accounts as needed. The main office contact is also responsible for ensuring that all users for their organization are aware of and adhering to the *User Responsibilities Guidelines*.

Please see the Main Office Contact Responsibilities section of the Provider Manual for more information.

Role Assignment

Some roles may be assigned by the main office contact. Other roles require Harvard Pilgrim intervention. Please see the *Notes/Comments* section of the grid below for more information on user role assignment.

Creating User Accounts

For information on creating user accounts please see the *Main Office Contact Responsibilities* section of the *Provider Manual.*

User Role Information

Role Name	Application Functions Available	Role Assigned By	Notes/Comments
Main office contact	The main office contact has the access to all general access functions including administration of <i>HPHConnect</i> users and their responsibilities, claims status inquiry, referral/authorization, and member eligibility.	Harvard Pilgrim	Harvard Pilgrim intervention is required to select this user role type. Provider staff who would usually be authorized for this user role would be office manager, practice administrator, Site administrator, or group administrator. If the user account already exists; the main office contact may submit the User Role Update Form for the user's account to be modified. Fax requests may be submitted to 1-866-884-3844. E-mail requests may be submitted to Provider_eBusiness_Services@point32health.org
Front office	The front office staff will have access to all general access functions, referral/authorization and member eligibility.	Main office contact	The provider staff that would usually be authorized for this user role would be front desk, registration or scheduling staff. If the user account already exists, the main office contact may change their access to front office.
Back office	The back-office staff will have access to all general access functions, claims status inquiry, referral/authorization and member eligibility.	Main office contact	The provider staff that would usually be authorized for this user role would be any billing or accounts receivable office staff (staff who has responsibility to bill and/or post accounts receivable). Billing agency staff would have this user role as well. If the user account already exists, the main office contact may change their access to back office.
Clinician (Main office contact)	The clinician has the most functions, with access to all general access functions as well as administration of <i>HPHConnect</i> responsibilities, claims status inquiry, referral/authorization,	Harvard Pilgrim	Harvard Pilgrim intervention is required to select this user role type. Only physicians may be authorized for this user role, and only their access list contains their individual provider data.

	member eligibility and member medication history. Personal health record — permission must be granted by the member.		If the user account already exists; the main office contact may submit a <i>User Role Update Form</i> for the account to be modified. Fax requests may be submitted to 1-866-884-3844. E-mail requests may be submitted to <u>Provider_eBusiness_Services@point32health.org</u>
Clinician designee —back office	The back-office staff will have access to all general functions, claims status inquiry, referral/ authorization, member eligibility and member medication history. Personal health record — permission must be granted by the member.	Harvard Pilgrim	Harvard Pilgrim intervention is required to select this user role type. The provider staff that would usually be authorized for this user role would be any billing or accounts receivable office staff (staff who has responsibility to bill and/or post accounts receivable). Access for clinician designee is available only to clinician practices. If the user account already exists; the main office contact may submit a <i>User Role Update Form</i> for the account to be modified. Fax requests may be submitted to 1-866-884-3844. E-mail requests may be submitted to <u>Provider_eBusiness_Services@point32health.org</u>
Clinician designee main office contact	The clinician designee main office contact has the same functions as the clinician, with access to all general access functions as well as administration of HPHConnect responsibilities, claims status inquiry, referral/ authorization, member eligibility and member medication history. Personal health record— permission must be granted by the member.	Harvard Pilgrim	Harvard Pilgrim intervention is required to select this user role type. Provider staff who would usually be authorized for this user role would be office manager, practice administrator, site administrator, or group administrator. Access for clinician designee is only available to clinician practices. If the user account already exists; the main office contact may submit the User Role Update Form for the account to be modified. Fax requests may be submitted to 866-884-3844. E-mail requests may be submitted to: Provider_eBusiness_Services@point32health.org
LCU reporting	The LCU (local care unit) reporting user is set up to view financial and utilization reports for their assigned LCU. They have access to all public functions but do not have access to claims status inquiry, referral/authorization or member eligibility.	Harvard Pilgrim	Harvard Pilgrim intervention is required to select this user role type. Provider office staff are typically not authorized for this user role. This role is reserved for local care unit representatives, such as the LCU's CEO, CFO, business analyst, or director. For more information, please contact your contracting consultant.
