

Electronic Funds Transfer

Quick Reference Guide

Enjoy greater convenience and timely payment by switching from paper checks to electronic funds transfer (EFT). EFT is fast, easy, and secure. The following information and tips can help you make the switch from paper checks to e-payment!

Payment advisories — EOPs and ERA/835

- You'll no longer receive paper checks, EOPs, or ERA/835s directly from Point32Health.
- You will receive your payment advisories from Payspan. Payspan offers two electronic methods of delivering remittance advice:
 - **EOPs** — Access images of your Explanations of Payment (EOPs) online with the ability to view, download, and print up to 18 months of EOPs. (For Harvard Pilgrim Health Care providers, payment history is only available from the time of registration forward.)
 - **ERA/835s** — Choose to have your HIPAA-compliant Electronic Remittance Advice (ERA/835) sent directly to one of the data exchange partners. Simply follow the instructions for routing 835s to an electronic mailbox when activating your account.

Payment schedule

- EFTs are available two business days following payment release at Payspan (for example, if payments are released on a Tuesday, your bank account will reflect payment on Thursday.) If payment release is scheduled for a holiday, payment may be delayed a day.
- It takes at least 48 hours after enrollment for your EFT account to become activated.
