Innovation for in-home urgent care

Providing urgent medical care to your patients

instED® provides patients with a convenient and effective alternative to visiting an emergency department for their urgent care needs.

With instED, you'll have peace of mind knowing your patients are cared for by highly trained paramedics, in collaboration with our physicians. You will be kept informed and updated of the care they receive.

instED is a proven and successful alternative to conventional urgent medical care options

Improving health outcomes and patient satisfaction, instED fills the gap between primary care and emergency care for patients including those with significant medical conditions.

86%

Of instED visits help patients successfully avoid the Emergency Department and the hospital admissions that often follow.
